

Published quarterly by the Lithuanian Academy of Sciences. 2015 impact factor 0.574.

The Journal started in 1961 as *Lietuvos fizikos rinkinys (Litovskii Fizicheskii Sbornik)*. Since 1993 it has the present title *Lithuanian Journal of Physics (Lietuvos fizikos žurnalas)*. In 1974–1999, its English translation was published in the USA by Allerton Press, Inc., New York, as *Soviet Physics-Collection* (1974–1988) and *Lithuanian Physics Journal* (1989–1999).

AIMS AND SCOPE

The main aim of the *Lithuanian Journal of Physics* is to reflect the most recent advances in various fields of theoretical, experimental, and applied physics, including:

- mathematical and computational physics
- subatomic physics
- atoms and molecules
- chemical physics
- electrodynamics and wave processes
- nonlinear and coherent optics
- spectroscopy

- ferroelectrics and superconductors
- semiconductors
- condensed matter physics and technology
- environmental physics
- interdisciplinary physics

The *Lithuanian Journal of Physics* publishes regular research articles, brief communications, and topical reviews of authors from Lithuania and other countries. Special issues of the Journal are devoted to the best papers presented at national and international scientific conferences.
