

AIMS AND SCOPE

The main aim of the *Lithuanian Journal of Physics* is to reflect the most recent advances in various fields of theoretical, experimental, and applied physics, including:

- mathematical and computational physics
- subatomic physics
- atoms and molecules
- chemical physics
- electrodynamics and wave processes
- nonlinear and coherent optics
- spectroscopy

- ferroelectrics and superconductors
- semiconductors
- condensed matter physics and technology
- environmental physics
- interdisciplinary physics

The *Lithuanian Journal of Physics* publishes regular research articles, brief communications, and topical reviews of authors from Lithuania and other countries. Special issues of the Journal are devoted to the best papers presented at national and international scientific conferences.

EDITORIAL BOARD

Evaldas Tornau (Editor-in-Chief), *Center for Physical Sciences and Technology, Vilnius*

Andrius Bernotas (Editorial Secretary), *Lithuanian Academy of Sciences and Vilnius University, Vilnius*

Jūras Banys, *Lithuanian Academy of Sciences and Vilnius University, Vilnius*

Adolfas Dargys, *Center for Physical Sciences and Technology, Vilnius*

Vidmantas Gulbinas, *Center for Physical Sciences and Technology, Vilnius*

Gytis Juška, *Vilnius University, Vilnius*

Žilvinas Kancleris, *Center for Physical Sciences and Technology, Vilnius*

Bronislovas Kaulakys, *Vilnius University, Vilnius*

Giedrius Laukaitis, *Kaunas University of Technology, Kaunas*

Antanas Feliksas Orliukas, *Vilnius University, Vilnius*

Vidmantas Remeikis, *Center for Physical Sciences and Technology, Vilnius*

Audrius Dubietis, *Vilnius University, Vilnius*

Juozas Vaitkus (Associate Editor-in-Chief), *Vilnius University, Vilnius*

Leonas Valkūnas, *Lithuanian Academy of Sciences, Center for Physical Sciences and Technology, and Vilnius University, Vilnius*

Bonifacas Vengalis, *Center for Physical Sciences and Technology, Vilnius*

INTERNATIONAL ADVISORY BOARD

Algis Piskarskas (Chairman), *Vilnius University, Vilnius, Lithuania*

Steponas Ašmontas, *Center for Physical Sciences and Technology, Vilnius, Lithuania*

Kiril Blagoev, *Solid State Institute, Bulgarian Academy of Sciences, Sofia, Bulgaria*

Saulius Juodkazis, *Swinburne University of Technology, Melbourne, Australia*

Jacek Karwowski, *Toruń University, Toruń, Poland*

Kęstutis Makariūnas, *Center for Physical Sciences and Technology, Vilnius, Lithuania*

Kenway Smith, *Glasgow University, Glasgow, UK*

Kęstutis Staliūnas, *Universitat Politècnica de Catalunya, Barcelona, Spain*

Sune Svanberg, *Lund Institute of Technology, Lund, Sweden*

Andris Sternberg, *University of Latvia, Riga, Latvia*

Juozas Vaitkus, *Vilnius University, Vilnius, Lithuania*
